## BUCKLEY SHEETMETAL ACCESS DOORS

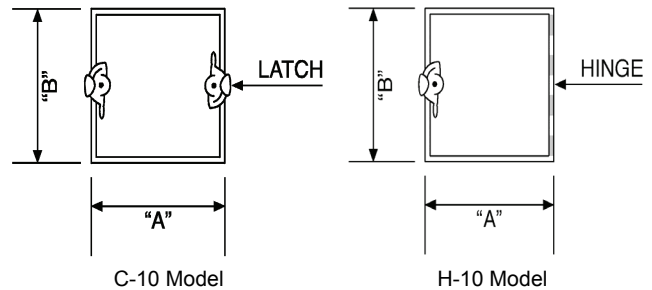

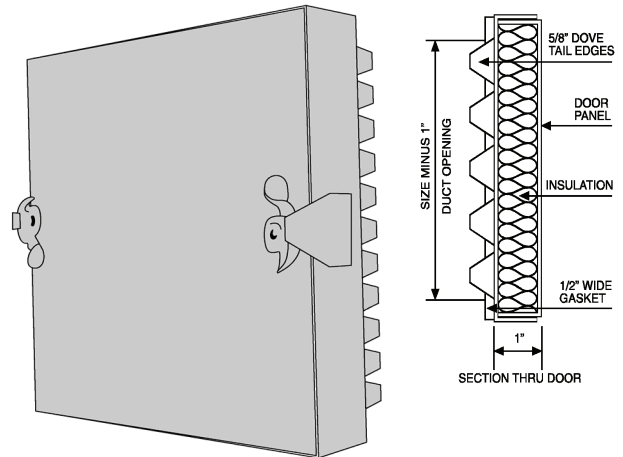

Models C-10 & H-10

### C10 AND H10 Access Doors

Buckley Access Doors shall be manufactured with 24 Gauge Galvanized door and 24 Gauge frame from coil stock which gives constant sizing. Door is 1" thick, of double wall construction, with 1" insulation sandwiched in between. The door is double gasketed to provide seals from the frame to the door and frame to the duct.

Model H-10 utilizes a steel continuous hinge with one or two zinc-plated cam latches. 22 gauge door panels are used for sizes 14 x 14 and larger.

Model C-10 comes with one or two, depending on size, zinc-plated cam, latches on two sides.
