Model VFB VRF Filter Box

Application and Design

The model VFB filter kit is a high efficiency MERV13 filter box designed for bolt-on installation to Fujitsu, Daikin, and other VRF indoor units. The slim cabinet design features a tool-less access door to simplify the removal and replacement of the filters. Available with double or single flange which ensures an easy to install in the field.

Standard Construction

- 26 Gauge Galvanized Steel
- Side Hinged Media Door; Optional Bottom Access
- Accommodates 2" (MERV13) Filters; Optional 2" (MERV8) Filters
